

ROSA MAICAS PERMACULTURE EDUCATOR

Rosa is a certified permaculture designer and is the founder of the Permaculture Institute called Permafunk. Perma-fun-k offers classes, hands-on permaculture workshops and PDC's in California and Spain.

Permaculture is an eco-design science that uses deep observation and applies methods and techniques into eco-design work to mimic natural systems and adapt them to our education, economy, housing, farming and way of living.

For more information about permaculture visit:
